Price

How much does it cost (USD)?

If you were to invest 10,000 for 5 years, with an expected market return of 5% per year :

Fees presented are indicative and for illustrative purposes. Theoretically if no fees were charged, your investment would be worth **12,762.82**. After fees your investment would be worth **12,124.67**. Which is a reduction of **638.14**. Or a reduction from the initial **5%** per year market return to an actual **3.9%** per year return.
